

HOW TO LOOK AFTER YOUR PETS

Feed your
pets everyday.

Make sure they have a safe,
comfortable place to rest and sleep.
They need blankets
in winter and shade in summer.

Pets must always have fresh,
clean water to drink.

Remember to have your pets
vaccinated every year and follow
your vet's instructions
for pet care.

If you see a sick or hurt animal,
tell an adult or contact
the SPCA for help.

Treat your pets with kindness
and gentleness. Spend time
with them and keep them safe.
