

HAPPY WORLD SNAKE DAY!

Top 8 Snake Safety Tips

1.

Stay calm if you see a snake, back away slowly and immediately tell an adult.

2.

Watch where you step, especially in long grass or rocky areas.

3.

Don't put your hands into holes or under rocks.

4.

Never touch a "dead" snake.

5.

If someone is bitten, keep them still and calm, and get medical help immediately.

6.

Leave snake removal to trained professionals.

7.

Know your snakes -
venomous vs harmless, but
leave all of them alone and
treat them with respect.

8.

If you encounter a spitting
cobra or Rinkhals - Flush
your eyes with clean,
running water for 15-20
minutes and seek medical
attention immediately.
