

# ARTISANS ARE IN DEMAND!

In 2014, the South African Government declared 2014–2024  
the decade of the artisan... Could you be an artisan?

Artisans work with things, data and ideas. Use these checklists to help you decide!

## THINGS

DO  
YOU  
LIKE?

YES  
NO

Fixing things

Operating machinery  
or equipment

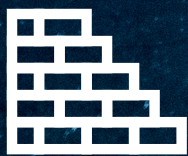

Assembling parts

Using tools

Working in a team

Constructing things

## DATA

DO  
YOU  
LIKE?

YES  
NO

Coming up  
with new ideas

Investigating problems

Collecting information

Finding out  
how things work

Doing experiments

Analysing information

## IDEAS

DO  
YOU  
LIKE?

YES  
NO

Designing  
new things

Drawing

Inventing  
new products

Working with your  
hands to create  
new things

If you answered

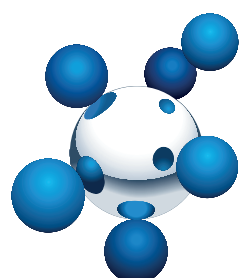

**YES**

to most of these questions...  
you might want to think about  
becoming an artisan!

## WHY BECOME AN ARTISAN?

- A degree is not the only qualification you can get. Artisan courses are just as valuable – and you get to earn money while you are getting qualified!
- You get to learn practical skills that are useful in everyday life
- There's a great need for qualified tradespeople in South Africa – we don't have enough skilled artisans in our country. By becoming an artisan, you can uplift yourself and help to build your country!
