

Math Number Formation Poem

1 Number 1 is like a stick.
A straight line that is very quick.

2 For number 2, go right around.
Then make a line across the ground.

3 Go right around. What will it be?
Go round again to make a 3.

4 Down and over and down some more.
That's the way to make a 4.

5 Go down and around. Then you stop.
Finish the 5 with a line on top.

6 Make a curve. Then make a loop.
There are no tricks to make a 6.

7 Across the sky and down from heaven.
That's the way to make a 7.

8 Make an "S" and then don't wait.
Go up again to make an 8.

9 Make a loop and then a line.
That's the way to make a 9.

10 Make a 1 and then a 0.
10 are all your fingers you know!
